# Weekly Multan Nama

Date: 28 May 2006

---

Report by: Mr. Gulam Moheyy-ed-Din, President VEER Network Multan,  
Nishtar Medical College, Multan City, Pakistan

## Activities of Volunteers of Education and Environmental Rehabilitation(VEER) Multan, Pakistan:

- The 2<sup>nd</sup> meeting of members of the VEER Network held on 27-05-2006.
- During the meeting various facts were discussed regarding Environmental situation of the Multan city.
- Media secretary pointed out the poor sewerage situation in Multan specially at Hafiz Jamal Road.
- During discussion the Water Contamination aspects were discussed briefly.
- Gastro is spreading rapidly in Punjab. Faisalabad is highly affected city but the city of Sufi Saints is also badly affected. A large number of patients are admitted in different hospitals of the city. President VEER Multan

explained the real situation .During his presentation he told that water contamination is the major cause of this disease.

- The members of VEER Multan surveyed *Nishtar Hospital* on 20-05-2005. The condition of the patients was very pitiable. The water coolers in different wards were not in good condition and many were not in good working condition. The water filters were not present in any one of the wards. The patients were using tap water. The hygienic condition was very poor.
- *Child Labor* is increasing and there are no proper measurements to stop this. This is one the major causes of poor literacy rate in the city; pointed out by General Secretary of VEER Network Multan.
- Finance Secretary gave a suggestion that we will have to do work to attract the Funding Agencies so that VEER Network Multan can work efficiently.
- At the end of meeting it was decided that every member will play his role to make our *Environmental campaign* successful.
- After this announcement, light refreshment was there.
- After refreshment the meeting ended with high hopes to make awareness among the people about the importance of better environmental conditions.
